

## Mobilize your Workforce

With **TruMobile** your road warriors gain access to all of the features of the corporate phone system anywhere in the US. Want to track mobile calls, receive daily call reports like you would with a desk phone, integrate the cell phone into your CRM, secure your corporate phone number – all of this and more is available with **TruMobile**.

## Ditch the Desk Phone

With **TruMobile**, workers that are predominantly out of the office no longer need to keep an “office phone”. With **TruMobile**, the mobile phone is an extension of the corporate phone system, which means that their cell phone behaves like the desk phone.

## Private Cellular Network

**TruConverged** includes our flagship **Private Cellular Network (PCN)**. The **PCN** is your own private cellular base station installed in your office. The **PCN** emits full bar signal strength so you will never lose another call in the office. While on the **PCN** all mobile **data** is free, and does not count against your shared data plan.

## TruAccess Portal

With **TruAccess** you are in control. Our **TruAccess Portal** gives you immediate access to the features and call control for each individual employee. Add a Voicemail, change call routing or change find-me/follow-me all online. Hire a new employee? Activate or deactivate new employees with the click of the mouse.

## Nationwide Coverage

**TruMobile** services are available with number portability virtually everywhere in the US. Port your office line to your cell phone or your cell phone number to your office line - **TruMobility** offers the ultimate in flexibility. **TruMobility's** nationwide coverage with nationwide voice, text and 4G data coverage.
